To,
Recruitment Team,
Wipro Limited

Subject: Application for Developer – Python (AIOps) (Job ID: 7220)

Dear Hiring Manager,

I am writing to express my interest in the Developer, Python (AIOps) role at Wipro (Job ID: 7220). I recently graduated with a Bachelor of Engineering in Information Technology.

I have strong skills in Python, Django, Flask, Java, SQL, Selenium, API testing, and web development. I also have experience in AI/ML, deep learning, NLP, IoT, and cloud technologies.

I am particularly excited about this role because it offers the chance to work on AIOps tool integrations and Gen AI use cases. I can use my backend development, problem-solving, and coding skills to build efficient, secure, and scalable applications.

I believe my technical skills, along with my ability to learn quickly and work well with others, make me a great fit for this position. I would appreciate the opportunity to contribute to Wipro's innovative projects and grow as part of your respected team. Thank you for considering my application. I look forward to discussing how my background matches your needs.

Sincerely,
Sakshi Wadekar
